# VB100 TEST REPORT

## Executive summary

We tested **Intego AV** (version 1.0.1.7) on June 5, 2021, on Microsoft Windows 10 Pro N, 64-bit, 10.0.19041, as per the 1.3 version of the VB100 methodology.

**The tested product has successfully met the VB100 test criteria.**

### Test criteria:

- The product must detect at least 99.5% of all test cases in the Certification set (malicious samples).
- The product must not generate more than 0.05% false alarms in the Clean set (legitimate program samples).

## Where to find more details

For detailed test results, please consult the rest of the report. You may also find the links below useful for up-to-date information on how to interpret the report data.

## Test sets and product response

The VB100 test uses multiple sets of malicious and clean test cases to verify the ability of the tested product to detect malware, and to do so without generating false alarms for legitimate programs.
